

NNN Biewend Building, LLC

AVAILABLE FOR §1031 EXCHANGE ♦ LLC INVESTMENT

Information about the property contained in this material must be read in conjunction with the Confidential Private Placement Memorandum, which contains additional important risk disclosures and more specific information about the property. This is neither an offer to sell nor a solicitation of an offer to buy an LLC interest in this property. Offers are made solely pursuant to the Confidential Private Placement Memorandum. Prospective investors should consult their own tax advisors to evaluate the tax consequences of an investment. The information in this material is current as of August 15, 2007.

THIS INVESTMENT IS SPECULATIVE AND INVOLVES A HIGH DEGREE OF RISK.

Property Summary

The Biewend Building is a 14-story, 154,500-square-foot medical office building on the Tufts-New England Medical Center campus in Boston, Massachusetts. Home to numerous hospital outpatient services, including the New England Eye Center and the Adult Orthopedic Clinic, the property is interconnected with the other buildings within the hospital through a series of corridors and sky bridges. The Biewend Building is within close proximity to Interstates 93 and 90 (the Massachusetts Turnpike), as well as the Massachusetts Bay Transportation Authority (MBTA) Orange and Red train lines. An Orange Line stop is located on the campus of the medical center, and additional bus routes run on and near the hospital campus. Built in 1924, the property was completely renovated in 1985, and is 100 percent leased to the Tufts-New England Medical Center.

Property Information

- Address: 260 Tremont Street
Boston, MA 02111
- Building Type: Medical Office
- Year Built: 1924 (Renovated in 1985)
- Total SF: 154,528
- % Leased: 100%

Financial Information

- Offering Purchase Price: \$66,865,000
- Offering Price Per SF: \$432.70
- Purchase Date: 3rd Quarter 2007
- Offering LTV: 73.10%
- Offering Price Cap Rate: 6.13%
- 1st Year Cash Flow: 6.00%
- Loan Terms: The loan has been locked with an overall effective interest rate of approximately 6.08% and a 5 year term. **The expected interest rate of 6.08% reflects a buy down of 47 basis points by paying a fee of 2.14% of the loan, or \$1,044,255.**

Please see the Confidential Private Placement Memorandum for additional information and risk disclosures about investment in this property. This material has been prepared for informational purposes only; it is not intended to provide and should not be relied upon for accounting, legal or tax advice. Always remember that each property is unique and past performance is no guarantee of future results.

Tenant

Tufts - New England Medical Center

www.nemc.org

Square Feet: 154,528 Lease Expiration: 08/2017

Tufts-New England Medical Center (Tufts-NEMC). The property's sole tenant, Tufts-NEMC, is a 451-bed academic medical center. The origins of this nonprofit hospital date back to 1796 when the Boston Dispensary was founded as New England's first permanent medical institution. The generosity of Revolutionary War luminaries such as Paul Revere and Sam Adams enabled the hospital to provide free medical care to the poor. In the 1960s, the Boston Dispensary merged with the Floating Hospital for Children and the Pratt Diagnostic Clinic. Medical breakthroughs at Tufts-NEMC have included the formulation of Similac, the discovery of the definitive test for syphilis and pioneering work in immunology that paved the way for organ transplants.

As the principal hospital for Tufts University Medical School, Tufts-NEMC offers residency programs in virtually all medical specialties. Tufts-NEMC oversees approximately \$50,000,000 of active research and ranks in the top ten of the nation's institutions that receive federal research funds.

The funding that Tufts-NEMC receives is utilized by research groups throughout the campus. The hospital's Molecular Cardiology Research Institute, located in The Tupper Building, is a world leader in molecular cardiology and cardiovascular research. The MCRI areas of focus include vascular biology, cardiomyocyte biology, electrophysiology, human genetics and genomics, molecular pharmacology, and signal transduction. They are a major recipient of the grants that Tufts-NEMC receives from the U.S. Government and have recently been awarded a \$11.3 million program project grant from the National Heart, Lung, and Blood Institute of the National Institutes of Health. The grant is titled "Molecular Mechanisms of Vascular Relaxation" and its long-term objective is to understand the complex underlying molecular mechanisms that regulate vascular tone and blood pressure in health and disease.

Location Information¹

Founded in 1630 by English Puritan colonists, Boston is the capital of Massachusetts and lies at the center of America's eleventh-largest metropolitan area, which is home to 4.5 million people. Boasting more than 100 institutions of higher learning, the city and its surrounding area is a hub of education and health care. Boston's colleges and universities have a major impact on the regional economy by attracting high-tech industries to the area. The city is home to numerous computer hardware and software companies, as well as biotechnology companies like Millennium Pharmaceuticals, Merck & Co., Genzyme Corporation, and Biogen Idec, Inc. Boston's research institutions typically receive among the highest awards given by the National Institutes of Health (NIH), the primary agency of the United States government responsible for biomedical research funding.

See the Confidential Private Placement Memorandum for more information about this specific market. Opinions and estimates contained herein constitute the judgment of the source or the sponsor and are subject to change without notice, as are statements of market trends, which are based on current market conditions. We believe the information provided herein is reliable, but do not warrant its accuracy or completeness.

Office Market¹

- Overall average asking rents increased 10 percent since the end of the first quarter and roughly 30 percent in the past year, currently standing at \$47.55 per square foot, gross.
- The downtown office market experienced yet another quarter of decreasing vacancy, declining 60 basis points quarter-over-quarter to 7.1 percent. This marks the eighth consecutive quarter that vacancy has declined, and is the lowest it has been since the second quarter of 2001.
- Downtown Boston achieved the eleventh straight quarter of positive absorption, posting a healthy 241,000 square feet. At the close of the first half of the year, the downtown Boston market has achieved approximately 469,000 square feet of positive absorption year-to-date.

Economic Trends¹

- As of April 2007, the unemployment rate in Boston was 4.2 percent. This number is 40 basis points lower than both the Massachusetts unemployment rate of 4.6 percent and 30 basis points lower than the national unemployment rate of 4.5 percent.
- The Worcester Business Journal reports that "according to the MassBenchmarks Current Economic Index, the commonwealth's economy grew by 4.7 percent during the first quarter of the year."

1. CB Richard Ellis, "Boston Office MarketView" 2Q, 2007

Property Strengths

- The property is currently 100 percent master leased by Tufts-NEMC for a period of ten years.
- The lease is an absolute net lease, pursuant to which the owner is only responsible for roof and structural repairs.
- The property is being purchased as a fee simple ownership interest with no restrictive covenants. Hospitals will typically only sell the physical building and not the land, so that an enforceable ground lease can be in place as a means of preventing the owner of the building from placing competing medical tenants on the campus of the hospital. In this situation, there are no restrictions as to who may occupy the property, and the owners may lease the space to any tenant.
- The tenant will pay for all immediate repairs.
- The property is positioned in an attractive location in the Mid-Town submarket.
 - Close to both high traffic areas of the Interstate-93 and Interstate-90 (the Massachusetts Turnpike) highway systems.
 - Closely located to the Logan International Airport.
 - Closely located to public transportation system.
 - All of the buildings within the hospital campus are interconnected through a series of corridors and sky bridges. This enables patients and hospital employees to move around the hospital without ever leaving the building.

Business Plan

- Preserve the capital investment.
- Realize income through the acquisition, operation and sale of the property.
- Make monthly distributions, which may be partially tax-deferred as a result of depreciation and amortization expenses.
- Within approximately five years, profitably sell the property based on the value added through effective management and operation of the property.
- **There is no guarantee that the business plan will be successfully executed, that the property's value will be enhanced, or that the property will be sold within the planned time period.**
- **The purchase of the property is contingent on the purchase of another building owned by the Seller.**
- **The purchase of the property is contingent on the approval of bondholders.**
- **The purchase price allocated to the property could exceed the fair market value of the property and may not represent a fair allocation of the purchase price paid for both the property and an additional building in the Tufts-New England Medical Center Campus that the manager or its affiliates will acquire.**
- **The property is dependent on a single tenant, Tufts - NEMC, which currently occupies 100 percent of the property.**
- **Extensive tenant improvements could be required to transform the property from a healthcare facility into a space suitable for use by other types of tenants in the future.**
- **The performance of the property is dependent on the healthcare industry and any regulation thereof.**

TIC Offering

- Offering Size: \$17,985,000
- Price Per 1% Ownership: \$179,850 equity and \$488,800 assumed debt
- Minimum Investment per SPE: 3.00% = \$539,550 equity and \$1,466,400 assumed debt for a total purchase price of \$2,005,950
- Suitability: Accredited Investors Only

LLC Offering

- Offering Size: \$899,250
- Price Per Unit: \$5,000
- Minimum Investment: \$25,000
- Suitability: Accredited Investors Only

These cash flow projections were created by the sponsor and are based on a number of assumptions and real estate analysis techniques. The results are necessarily hypothetical; the underlying assumptions may not be accurate, the results shown may not occur, and your performance could vary significantly. This material must be read in conjunction with the Confidential Private Placement Memorandum, which contains additional important risk disclosures and more specific information about the assumptions made.

TIC Projected Annual Cash-on-Cash Yield

\$539,550 Investment Per SPE

Year 1	Year 2	Year 3	Year 4	Year 5
6.00%	6.20%	6.45%	7.33%	8.05%

LLC Projected Annual Cash-on-Cash Yield

\$25,000 Investment

Year 1	Year 2	Year 3	Year 4	Year 5
6.00%	6.20%	6.45%	7.33%	8.05%

Projected Annualized Returns

Terminal Cap Rate	TIC Return	LLC Return
6.35%	12.11%	11.42%
6.50%	10.28%	9.86%
6.65%	8.53%	8.37%
6.80%	6.85%	6.85%
6.95%	5.25%	5.25%

Terminal Cap Rate Sensitivity

- Interests in this property are speculative and involve a high degree of risk; investors should be able to bear the complete loss of their investment.
- SOME INTERESTS ARE SUBJECT TO RECOURSE LIABILITY, i.e., tenants-in-common will be responsible for providing any cash needed in the future in connection with the property.
- There are restrictions in transferring interests; the interests are not liquid investments.
- There are a number of significant tax risks and tax issues involved with the purchase of an interest in this property; investors should consult their own tax advisors and legal counsel.
- The direct or indirect purchase of real property involves significant risks, including market risk and risks specific to a given property.
- The purchase of real property with other investors, e.g., as a tenant-in-common, presents risks related to the relationship with those other investors.
- Investment in this property is expected to be leveraged; leverage may increase volatility and may increase the risk of investment loss.
- The manager has broad authority and discretion over the property and the terms of financing; the various fees paid to the manager and its affiliates are significant and may offset profits related to the ownership and operation of the real estate.
- Cash distributed to you may constitute a return of your own capital and may be paid from proceeds of the offering, e.g., reserves.

Triple Net Properties, LLC has time-tested experience in real estate syndications, acquisitions, leasing and property management. Triple Net currently manages a growing portfolio of over 37 million square feet of real estate in 28 states valued in excess of \$5.1 billion.
